6PM CALL

Market today: Surprise rebound

(Vu Duong – vu.dg@vdsc.com.vn)

The market moved slowly in the morning. Most large cap stocks went flat. Accordingly, VN Index ended the morning session in the red.

The situation improved in the afternoon. BVH rose 3%. The banking sector also bounced back: CTG, BID and ACB turned green. Capital flows saw this as a signal and poured into large cap stocks, helping the VN Index rise above 990 points.

At the close, the VN Index increased 5.9 points (+0.6%) and HNX Index gained 0.8 points (+0.74%). Liquidity on the HOSE was around VND3,700 billion

After net buying in the previous session, foreign investors net sold VND 94bn today. Top buying stocks were SSI, VNM and PLX.

In general, cash flow focused on large cap stocks which had a positive impact.

Analyst Pin-board

PVD – Reversal from receivables can support profits in the short term

(Vu Tran – vu.thx@vdsc.com.vn)

Technical Analyst Recommendations

Indexes increased quite strong on rising volumes. The current short-term trend is still sideways. Traders may increase the proportion of stocks if indexes conquered their previous peaks successfully.

IMPORTANT DISCLOSURES FOR U.S. PERSONS

This research report was prepared by Viet Dragon Securities Corp. ("VDSC"), a company authorized to engage in securities activities in Vietnam. VDSC is not a registered broker-dealer in the United States and, therefore, is not subject to U.S. rules regarding the preparation of research reports and the independence of research analysts. This research report is provided for distribution to "major U.S. institutional investors" in reliance on the exemption from registration provided by Rule 15a-6 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act").

Additional Disclosures

This research report is for distribution only under such circumstances as may be permitted by applicable law. This research report has no regard to the specific investment objectives, financial situation or particular needs of any specific recipient, even if sent only to a single recipient. This research report is not guaranteed to be a complete statement or summary of any securities, markets, reports or developments referred to in this research report. Neither VDSC nor any of its directors, officers, employees or agents shall have any liability, however arising, for any error, inaccuracy or incompleteness of fact or opinion in this research report or lack of care in this research report's preparation or publication, or any losses or damages which may arise from the use of this research report.

VDSC may rely on information barriers, such as "Chinese Walls" to control the flow of information within the areas, units, divisions, groups, or affiliates of VDSC.

Investing in any non-U.S. securities or related financial instruments (including ADRs) discussed in this research report may present certain risks. The securities of non-U.S. issuers may not be registered with, or be subject to the regulations of, the U.S. Securities and Exchange Commission. Information on such non-U.S. securities or related financial instruments may be limited. Foreign companies may not be subject to audit and reporting standards and regulatory requirements comparable to those in effect within the United States.

The value of any investment or income from any securities or related financial instruments discussed in this research report denominated in a currency other than U.S. dollars is subject to exchange rate fluctuations that may have a positive or adverse effect on the value of or income from such securities or related financial instruments.

Past performance is not necessarily a guide to future performance and no representation or warranty, express or implied, is made by VDSC with respect to future performance. Income from investments may fluctuate. The price or value of the investments to which this research report relates, either directly or indirectly, may fall or rise against the interest of investors. Any recommendation or opinion contained in this research report may become outdated as a consequence of changes in the environment in which the issuer of the securities under analysis operates, in addition to changes in the estimates and forecasts, assumptions and valuation methodology used herein.

No part of the content of this research report may be copied, forwarded or duplicated in any form or by any means without the prior.
