## **“Rubber and Oil & Gas Stocks Shine During Today’s Session”**

**6 PM CALL**

### ***Market today: Rubber and Oil & Gas Stocks Shine During Today’s Session*** *(Hieu Nguyen - Ext: 1514)*

The two main indexes only increased slightly (VN-Index + 0.05% and HNX-Index + 0.01%), although the market constantly fluctuated throughout the day. The liquidity remained near yesterday’s level, and total trading turnover on both exchanges was approximately VND2,200 billion. Rubber stocks continued to be among the top performing stocks of the day, as rubber prices surged. This contributed to the rally of PHR, TRC, and especially HAG and HNG, as both of these stocks’ prices went to the ceiling.

Oil & gas stocks also shined after the rebound of oil prices yesterday. Oil prices rose by 6%, reflecting market expectations of the possibility of a fuel production cut from OPEC countries. OPEC’s final decision may come out in their November 30<sup>th</sup> meeting.

*The index continued to move in a narrow channel and has not shown any clear trend. Since supportive information is currently scarce, investors are recommended to maintain a reasonable amount of cash to prepare for upcoming market movements.*
