Market today: Ending in green

*(**Ngoan Phung** – Ext: 1516)*

After the quiet morning session, active market in the afternoon helped the indexes close the August in green. The market saw a strong divergence among the blue-chips. In other words, the stocks named VCB, GAS, MSN, BVH… declined while VNM, HPG, FPT…pulled the indexes up. Similarly, there was the downside consensus of banking stocks while the stocks of other sector such as plastic (NTP, DNP), real estate (CTD, HBC, VCG), steel (HPG, HSG) gained sharply. At close, VNIndex advanced 1.96 points, continued to forward the previous high of 681 points. HNIndex closed at 84.38 points, a slight upsurge of 0.69 points. Market liquidity improved significantly to reach VND 3,456.8 billion on both bourses, a strong increase of 25.7% as compared to the last trading session.

This second upside session perhaps signaled the investors' optimism about market outlook. Today upsurge was not different from the previous session, except the improved liquidity. Strong demand at the top would create an opportunity for market to retest 681-point level in upcoming period.
